SECURITIES AND EXCHANGE COMMISSION**

Washington, D.C. 20549

FORM 10-Q

(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended September 30, 2023

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File Number: 001-35784

NORWEGIAN CRUISE LINE HOLDINGS LTD.

(Exact name of registrant as specified in its charter)

Bermuda
(State or other jurisdiction of incorporation or organization)

98-0691007
(I.R.S. Employer Identification No.)

7665 Corporate Center Drive, Miami, Florida 33126
(Address of principal executive offices)

33126
(zip code)

(305) 436-4000

(Registrant's telephone number, including area code)

N/A

(Former name, former address and former fiscal year, if changed since last report)

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading Symbol(s)	Name of each exchange on which registered
Ordinary shares, par value \$0.001 per share	NCLH	The New York Stock Exchange

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer
Non-accelerated filer
Emerging growth company

Accelerated filer
Smaller reporting company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

There were 425,424,934 ordinary shares outstanding as of October 31, 2023.

Norwegian Cruise Line Holdings Ltd.
Notes to Consolidated Financial Statements
(Unaudited)

Unless otherwise indicated or the context otherwise requires, references in this report to (i) the “Company,” “we,” “our” and “us” refer to NCLH (as defined below) and its subsidiaries, (ii) “NCLC” refers to NCL Corporation Ltd., (iii) “NCLH” refers to Norwegian Cruise Line Holdings Ltd., (iv) “Norwegian Cruise Line” or “Norwegian” refers to the Norwegian Cruise Line brand and its predecessors, (v) “Oceania Cruises” refers to the Oceania Cruises brand and (vi) “Regent” refers to the Regent Seven Seas Cruises brand.

References to the “U.S.” are to the United States of America, and “dollar(s)” or “\$” are to U.S. dollars, the “U.K.” are to the United Kingdom and “euro(s)” or “€” are to the official currency of the Eurozone. We refer you to “Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations— Terminology” for the capitalized terms used and not otherwise defined throughout these notes to consolidated financial statements.

1. Description of Business and Organization

We are a leading global cruise company which operates the Norwegian Cruise Line, Oceania Cruises and Regent Seven Seas Cruises brands. As of September 30, 2023, we had 31 ships with approximately 66,000 Berths and had orders for six additional ships to be delivered through 2028.

We have four Prima Class Ships on order with currently scheduled delivery dates from 2025 through 2028. We have one Explorer Class Ship on order for delivery in 2023. We have one Allura Class Ship on order for delivery in 2025. These additions to our fleet will increase our total Berths to approximately 82,000.

2. Summary of Significant Accounting Policies

Liquidity

As of September 30, 2023, we had liquidity of approximately \$2.2 billion, including cash and cash equivalents of \$681.6 million and borrowings available under our \$875 million undrawn Revolving Loan Facility and \$650 million undrawn commitment of Class B Notes and Backstop Notes issuable by NCLC less related fees (see Note 7 – “Long-Term Debt”). Additionally, in October 2023, we increased our Revolving Loan Facility to \$1.2 billion (see Note 7 – “Long-Term Debt”). We believe that we have sufficient liquidity to fund our obligations and expect to remain in compliance with our financial covenants for at least the next twelve months from the issuance of these financial statements.

We will continue to pursue various opportunities to refinance future debt maturities to reduce interest expense and/or to extend the maturity dates associated with our existing indebtedness and obtain relevant financial covenant amendments or waivers, if needed.

Basis of Presentation

The accompanying consolidated financial statements are unaudited and, in our opinion, contain all normal recurring adjustments necessary for a fair statement of the results for the periods presented.

Our operations are seasonal and results for interim periods are not necessarily indicative of the results for the entire fiscal year. Historically, demand for cruises has been strongest during the Northern Hemisphere’s summer months; however, our cruise voyages were completely suspended from March 2020 until July 2021 due to the COVID-19 pandemic and our resumption of cruise voyages was phased in gradually through May 2022. The interim consolidated financial statements should be read in conjunction with the audited consolidated financial statements for the year ended December 31, 2022, which are included in our most recent Annual Report on Form 10-K filed with the SEC on February 28, 2023.

Earnings (Loss) Per Share

Basic earnings (loss) per share is computed by dividing net income (loss) by the basic weighted-average number of shares outstanding during each period. Diluted earnings (loss) per share is computed by dividing net income (loss) and assumed conversion of exchangeable notes by diluted weighted-average shares outstanding.

A reconciliation between basic and diluted earnings (loss) per share was as follows (in thousands, except share and per share data):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2023	2022	2023	2022
Net income (loss) - Basic EPS	\$ 345,868	\$ (295,394)	\$ 272,663	\$ (1,787,429)
Effect of dilutive securities - exchangeable notes	17,510	—	13,809	—
Net income (loss) and assumed conversion of exchangeable notes - Diluted EPS	\$ 363,378	\$ (295,394)	\$ 286,472	\$ (1,787,429)
Basic weighted-average shares outstanding	425,398,415	420,798,538	424,087,517	419,224,710
Dilutive effect of share awards	3,676,562	—	2,594,108	—
Dilutive effect of exchangeable notes	82,510,468	—	34,137,750	—
Diluted weighted-average shares outstanding	511,585,445	420,798,538	460,819,375	419,224,710
Basic EPS	\$ 0.81	\$ (0.70)	\$ 0.64	\$ (4.26)
Diluted EPS	\$ 0.71	\$ (0.70)	\$ 0.62	\$ (4.26)

Each exchangeable note (see Note 7 – “Long-Term Debt”) is individually evaluated for its dilutive or anti-dilutive impact on EPS. Only the interest expense and weighted average shares for exchangeable notes that are dilutive are included in the effect of dilutive securities above. During the three months ended September 30, 2023, each of the exchangeable notes was dilutive. During the nine months ended September 30, 2023, only the 2027 1.125% Exchangeable Notes were dilutive. For the three months ended September 30, 2023 and 2022, a total of 3.8 million and 96.3 million shares, respectively, and for the nine months ended September 30, 2023 and 2022, a total of 54.4 million and 93.5 million shares, respectively, have been excluded from diluted weighted-average shares outstanding because the effect of including them would have been anti-dilutive.

Foreign Currency

The majority of our transactions are settled in U.S. dollars. We remeasure assets and liabilities denominated in foreign currencies at exchange rates in effect at the balance sheet date. The resulting gains or losses are recognized in our consolidated statements of operations within other income (expense), net. We recognized gains of \$15.7 million and \$34.7 million for the three months ended September 30, 2023 and 2022, respectively, and a loss of \$4.2 million and a gain of \$79.4 million for the nine months ended September 30, 2023 and 2022, respectively, related to remeasurement of assets and liabilities denominated in foreign currencies. Remeasurements of foreign currency related to operating activities are recognized within changes in operating assets and liabilities in the consolidated statement of cash flows.

Depreciation and Amortization Expense

The amortization of deferred financing fees is included in depreciation and amortization expense in the consolidated statements of cash flows; however, for purposes of the consolidated statements of operations they are included in interest expense, net.

Accounts Receivable, Net

Accounts receivable, net included \$42.0 million and \$118.4 million due from credit card processors as of September 30, 2023 and December 31, 2022, respectively.

3. Revenue Recognition

Disaggregation of Revenue

Revenue and cash flows are affected by economic factors in various geographical regions. Revenues by destination were as follows (in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2023	2022	2023	2022
North America	\$ 1,234,852	\$ 892,971	\$ 3,817,082	\$ 2,053,909
Europe	1,284,421	718,435	2,245,868	1,243,149
Asia-Pacific	15,972	2,957	311,524	24,611
Other	792	1,147	188,994	2,962
Total revenue	<u>\$ 2,536,037</u>	<u>\$ 1,615,510</u>	<u>\$ 6,563,468</u>	<u>\$ 3,324,631</u>

North America includes the U.S., the Caribbean, Canada and Mexico. Europe includes the Baltic region, Canary Islands and Mediterranean. Asia-Pacific includes Australia, New Zealand and Asia. Other includes all other international territories.

Segment Reporting

We have concluded that our business has a single reportable segment. Each brand, Norwegian, Oceania Cruises and Regent, constitutes a business for which discrete financial information is available and management regularly reviews the brand level operating results and, therefore, each brand is considered an operating segment. Our operating segments have similar economic and qualitative characteristics, including similar long-term margins, products and services; therefore, we aggregate all of the operating segments into one reportable segment.

Although we sell cruises on an international basis, our passenger ticket revenue is primarily attributed to U.S.-sourced guests who make reservations through the U.S. Revenue attributable to U.S.-sourced guests has approximated 83-87% of total revenue over the preceding three fiscal years. No other individual country's revenues exceed 10% in any given period.

Contract Balances

Receivables from customers are included within accounts receivable, net. As of September 30, 2023 and December 31, 2022, our receivables from customers were \$91.0 million and \$94.2 million, respectively, primarily related to in-transit credit card receivables.

Our standard payment and cancellation penalties apply for all sailings after March 31, 2023. Future cruise credits that have been issued as face value reimbursement for cancelled bookings due to COVID-19 are approximately \$71.3 million. The future cruise credits are not contracts, and therefore, guests who elected this option are excluded from our contract liability balance; however, the credit for the original amount paid is included in advance ticket sales.

Our contract liabilities are included within advance ticket sales. As of September 30, 2023 and December 31, 2022, our contract liabilities were \$2.1 billion and \$1.7 billion, respectively. Of the amounts included within contract liabilities as of September 30, 2023, approximately 40% were refundable in accordance with our cancellation policies. Of the deposits included within advance ticket sales, the majority are refundable in accordance with our cancellation policies and it is uncertain to what extent guests may request refunds. For the nine months ended September 30, 2023, \$1.7 billion of revenue recognized was included in the contract liability balance at the beginning of the period.

4. Leases

Operating lease balances were as follows (in thousands):

	Balance Sheet location	September 30, 2023	December 31, 2022
Operating leases			
Right-of-use assets	Other long-term assets	\$ 702,125	\$ 707,086
Current operating lease liabilities	Accrued expenses and other liabilities	36,579	39,689
Non-current operating lease liabilities	Other long-term liabilities	582,836	588,064

5. Accumulated Other Comprehensive Income (Loss)

Accumulated other comprehensive income (loss) for the nine months ended September 30, 2023 was as follows (in thousands):

	Nine Months Ended September 30, 2023		
	Accumulated Other Comprehensive Income (Loss)	Change Related to Cash Flow Hedges	Change Related to Shipboard Retirement Plan
Accumulated other comprehensive income (loss) at beginning of period	\$ (477,079)	\$ (480,578)	\$ 3,499
Current period other comprehensive income before reclassifications	34,833	34,833	—
Amounts reclassified into earnings	(13,699)	(13,890)(1)	191 (2)
Accumulated other comprehensive income (loss) at end of period	\$ (455,945)	\$ (459,635)(3)	\$ 3,690

Accumulated other comprehensive income (loss) for the nine months ended September 30, 2022 was as follows (in thousands):

	Nine Months Ended September 30, 2022		
	Accumulated Other Comprehensive Income (Loss)	Change Related to Cash Flow Hedges	Change Related to Shipboard Retirement Plan
Accumulated other comprehensive income (loss) at beginning of period	\$ (285,086)	\$ (279,696)	\$ (5,390)
Current period other comprehensive income (loss) before reclassifications	(244,361)	(246,742)	2,381
Amounts reclassified into earnings	(75,055)	(75,339)(1)	284 (2)
Accumulated other comprehensive income (loss) at end of period	\$ (604,502)	\$ (601,777)	\$ (2,725)

- (1) We refer you to Note 8 – “Fair Value Measurements and Derivatives” for the affected line items in the consolidated statements of operations.
- (2) Amortization of prior-service cost and actuarial loss reclassified to other income (expense), net.
- (3) Includes \$24.3 million of gains expected to be reclassified into earnings in the next 12 months.

6. Property and Equipment, Net

Property and equipment, net increased \$1.5 billion for the nine months ended September 30, 2023 primarily due to the delivery of Norwegian Viva, a Prima Class Ship, and Oceania Cruises' Vista, an Allura Class Ship. We determine the weighted average useful lives of each class of ships based primarily on our estimates of the useful lives of the ships' major component systems on the date of acquisition, such as cabins, main diesels, main electric, superstructure and hull, and their related proportional weighting to the ship as a whole. We have assessed the weighted-average useful life of the components of Oceania Cruises' Vista and assigned a useful life of 35 years and residual value of 10% to the Allura Class Ships. The useful life and residual value consider the historical useful lives of similar assets, manufacturer recommended lives, planned maintenance programs, anticipated changes in technological conditions and the related proportional weighting of the major components of the Allura Class Ships. We refer you to our Annual Report on Form 10-K for a discussion of the useful life and residual value assigned to Prima Class Ships.

7. Long-Term Debt

In February 2023, NCLC issued \$600.0 million aggregate principal amount of 8.375% senior secured notes due 2028 (the "2028 Senior Secured Notes"). The 2028 Senior Secured Notes and related guarantees are secured by first-priority interests in, among other things and subject to certain agreed security principles, fourteen of our vessels that also secure the Sixth ARCA and 2029 Senior Secured Notes (each as defined below). The 2028 Senior Secured Notes are guaranteed by our subsidiaries that own the vessels that secure the 2028 Senior Secured Notes. NCLC may redeem the 2028 Senior Secured Notes at its option, in whole or in part, at any time and from time to time prior to February 1, 2025, at a "make-whole" redemption price, plus accrued and unpaid interest and additional amounts, if any, to, but excluding, the redemption date. NCLC may redeem the 2028 Senior Secured Notes at its option, in whole or in part, at any time and from time to time on or after February 1, 2025, at the redemption prices set forth in the indenture governing the 2028 Senior Secured Notes plus accrued and unpaid interest and additional amounts, if any, to, but excluding, the redemption date. At any time and from time to time prior to February 1, 2025, NCLC may choose to redeem up to 40% of the aggregate principal amount of the 2028 Senior Secured Notes with the net proceeds of certain equity offerings, subject to certain restrictions, at a redemption price equal to 108.375% of the principal amount of the 2028 Senior Secured Notes redeemed plus accrued and unpaid interest to, but excluding, the redemption date, so long as at least 60% of the aggregate principal amount of the 2028 Senior Secured Notes issued remains outstanding following such redemption. The 2028 Senior Secured Notes pay interest at 8.375% per annum, semiannually on February 1 and August 1 of each year, to holders of record at the close of business on the immediately preceding January 15 and July 15, respectively.

The proceeds from the 2028 Senior Secured Notes were used to repay the loans outstanding under our Term Loan A Facility that otherwise would have become due in January 2024, including to pay any accrued and unpaid interest thereon, as well as related premiums, fees and expenses.

The indenture governing the 2028 Senior Secured Notes includes requirements that, among other things and subject to a number of qualifications and exceptions, restrict the ability of NCLC and its restricted subsidiaries, as applicable, to (i) incur or guarantee additional indebtedness; (ii) pay dividends or distributions on, or redeem or repurchase, equity interests and make other restricted payments; (iii) make investments; (iv) consummate certain asset sales; (v) engage in certain transactions with affiliates; (vi) grant or assume certain liens; and (vii) consolidate, merge or transfer all or substantially all of their assets.

In July 2022, NCLC entered into a \$1 billion amended and restated commitment letter (the "commitment letter") with the purchasers named therein (collectively, the "Commitment Parties"), which superseded a \$1 billion commitment letter previously executed in November 2021. The commitment letter, among other things, extended the commitments thereunder through March 31, 2023. In February 2023, the Commitment Parties further amended the commitment letter (the "amended commitment letter") to extend certain commitments thereunder through February 2024, with an option for NCLC to further extend such commitments through February 2025 at its election. We may extend or replace the commitments in or before February 2024. Pursuant to the amended commitment letter, the Commitment Parties have agreed to purchase from NCLC an aggregate principal amount of up to \$650 million of senior secured notes at NCLC's option. NCLC has the option to make up to two draws, consisting of (i) \$250 million of senior secured notes due 2028 that, if issued, will accrue interest at a rate of 11.00% per annum subject to a 1.00% increase or decrease based on certain

[Table of Contents](#)

market conditions at the time drawn (the “Class B Notes”) and (ii) \$400 million aggregate principal amount of 8.00% senior secured notes due five years after the issue date (the “Backstop Notes”). The Class B Notes and the Backstop Notes are subject to a quarterly commitment fee of 0.75% for so long as the commitments with respect to Class B Notes or the Backstop Notes, as applicable, are outstanding, which fee will be increased to 1.00% if NCLC extends the commitments through February 2025 at its election. If drawn, the Class B Notes will be subject to an issue fee of 2.00%, and the Backstop Notes will be subject to a quarterly duration fee of 1.50%, as well as an issue fee of 3.00%.

In February 2023, in connection with the execution of the amended commitment letter, NCLC issued \$250 million aggregate principal amount of 9.75% senior secured notes due 2028 (the “Class A Notes” and, collectively with the Class B Notes and the Backstop Notes, the “Notes”), subject to an issue fee of 2.00%. NCLC used the net proceeds from the Class A Notes for general corporate purposes. NCLC may redeem the Class A Notes at its option, in whole or in part, at any time and from time to time prior to February 22, 2025, at a “make-whole” redemption price, plus accrued and unpaid interest and additional amounts, if any, to, but excluding, the redemption date. NCLC may redeem the Class A Notes at its option, in whole or in part, at any time and from time to time on or after February 22, 2025, at the redemption prices set forth in the indenture governing the Class A Notes, plus accrued and unpaid interest and additional amounts, if any, to, but excluding, the redemption date. The Class A Notes pay interest at 9.75% per annum, quarterly on February 15, May 15, August 15 and November 15 of each year, to holders of record at the close of business on the immediately preceding February 1, May 1, August 1 and November 1, respectively.

The Class A Notes are, and the Class B Notes and the Backstop Notes, if issued, will be, secured by first-priority interests in, among other things and subject to certain agreed security principles, shares of capital stock in certain guarantors, our material intellectual property and two islands that we use in the operations of our cruise business. The Class A Notes are, and the Class B Notes and the Backstop Notes, if issued, will be, guaranteed by our subsidiaries that own the property that secures the Notes as well as certain additional subsidiaries whose assets do not secure the Notes.

The indenture governing the Class A Notes includes requirements that, among other things and subject to a number of qualifications and exceptions, restrict the ability of NCLC and its restricted subsidiaries, as applicable, to (i) incur or guarantee additional indebtedness; (ii) pay dividends or distributions on, or redeem or repurchase, equity interests and make other restricted payments; (iii) make investments; (iv) consummate certain asset sales; (v) engage in certain transactions with affiliates; (vi) grant or assume certain liens; and (vii) consolidate, merge or transfer all or substantially all of their assets.

In February 2023, NCLC entered into a Backstop Agreement with Morgan Stanley & Co. LLC (“MS”), pursuant to which MS agreed to provide backstop committed financing to refinance and/or repay in whole or in part amounts outstanding under the Senior Secured Credit Facility. Pursuant to the Backstop Agreement, we could, at our sole option, issue and sell to MS (subject to the satisfaction of certain conditions) five-year senior unsecured notes up to an aggregate principal amount sufficient to generate gross proceeds of \$300 million at any time between October 4, 2023 and January 2, 2024. As a result of the refinancing of the Senior Secured Credit Facility in October 2023 (discussed below), the backstop committed financing is no longer applicable.

In April 2023, \$82.5 million in aggregate principal amount of the Revolving Loan Facility due January 2024 was assigned to a new lender, and the maturity date was extended by one year to January 2025. The terms of the assigned principal were the same as the existing lenders who extended commitments in December 2022 under Amendment No. 4 to the Senior Secured Credit Facility.

In April 2023, we took delivery of Oceania Cruises’ Vista. We had export credit financing in place for 80% of the contract price. The associated \$632.6 million term loan bears interest at a fixed rate of 3.64% with a maturity date of April 30, 2035. Principal and interest payments are payable semiannually.

In May and June 2023, certain of NCLC’s export-credit backed facilities were amended to replace LIBOR with Term SOFR. In connection with these amendments, the Company adopted Accounting Standards Update (“ASU”) No. 2020-04, *Reference Rate Reform (Topic 848): Facilitation of the Effects of Reference Rate Reform on Financial Reporting* (“ASU 2020-04”), which provided guidance to alleviate the burden in accounting for reference rate reform by allowing certain expedients and exceptions in applying GAAP to contracts, hedging relationships and other transactions impacted

[Table of Contents](#)

by reference rate reform. The provisions apply only to those transactions that reference LIBOR or another reference rate expected to be discontinued due to reference rate reform. As of June 30, 2023, we have applied certain optional expedients in our accounting for these amendments and the impact was immaterial.

In August 2023, we took delivery of Norwegian Viva. We had export credit financing in place for 80% of the contract price. The associated \$1.1 billion term loan bears interest at a fixed rate of 2.77% with a maturity date of August 3, 2035. Principal and interest payments are payable semiannually.

In October 2023, NCLC issued \$790.0 million aggregate principal amount of senior secured notes due 2029 (the “2029 Senior Secured Notes”). The 2029 Senior Secured Notes and related guarantees are secured by first-priority interests in, among other things and subject to certain agreed security principles, fourteen of our vessels that also secure the Sixth ARCA (as defined below) and the 2028 Senior Secured Notes. The 2029 Senior Secured Notes are guaranteed by our subsidiaries that own the vessels that secure the 2029 Senior Secured Notes. NCLC may redeem the 2029 Senior Secured Notes at its option, in whole or in part, at any time and from time to time prior to January 15, 2026, at a “make-whole” redemption price, plus accrued and unpaid interest and additional amounts, if any, to, but excluding, the redemption date. NCLC may redeem the 2029 Senior Secured Notes at its option, in whole or in part, at any time and from time to time on or after January 15, 2026, at the redemption prices set forth in the indenture governing the 2029 Senior Secured Notes plus accrued and unpaid interest and additional amounts, if any, to, but excluding, the redemption date. At any time and from time to time prior to January 15, 2026, NCLC may choose to redeem up to 40% of the aggregate principal amount of the 2029 Senior Secured Notes with the net proceeds of certain equity offerings, subject to certain restrictions, at a redemption price equal to 108.125% of the principal amount of the 2029 Senior Secured Notes redeemed plus accrued and unpaid interest to, but excluding, the redemption date, so long as at least 60% of the aggregate principal amount of the 2029 Senior Secured Notes issued remains outstanding following such redemption. The 2029 Senior Secured Notes pay interest at 8.125% per annum, semiannually on January 15 and July 15 of each year, commencing on July 15, 2024, to holders of record at the close of business on the immediately preceding January 1 and July 1, respectively.

NCLC used the net proceeds from the 2029 Senior Secured Notes offering, together with cash on hand, to repay the Term Loan A Facility, which would have matured in January 2025, including to pay any accrued and unpaid interest thereon, as well as related premiums, fees and expenses.

The indenture governing the 2029 Senior Secured Notes includes requirements that, among other things and subject to a number of qualifications and exceptions, restrict the ability of NCLC and its restricted subsidiaries, as applicable, to (i) incur or guarantee additional indebtedness; (ii) pay dividends or distributions on, or redeem or repurchase, equity interests and make other restricted payments; (iii) make investments; (iv) consummate certain asset sales; (v) engage in certain transactions with affiliates; (vi) grant or assume certain liens; and (vii) consolidate, merge or transfer all or substantially all of their assets.

In October 2023, NCLC amended and restated the Senior Secured Credit Facility (the “Sixth ARCA”). The Sixth ARCA, among other things, increased the aggregate amount of the Revolving Loan Facility from \$875 million to \$1.2 billion. The Sixth ARCA and related guarantees are secured by first-priority interests in, among other things and subject to certain agreed security principles, fourteen of our vessels that also secure the 2028 Senior Secured Notes and 2029 Senior Secured Notes. The commitments and any loans under the Revolving Loan Facility mature on October 18, 2026, provided that (a) if, on September 16, 2024, NCLC’s 3.625% senior notes due 2024 have not been repaid or refinanced with indebtedness maturing after January 16, 2027 and a liquidity test is not satisfied, the maturity date will be September 16, 2024, (b) if, on May 2, 2025, NCLC’s 2025 Exchangeable Notes have not been repaid or refinanced with indebtedness maturing after January 16, 2027 and a liquidity test is not satisfied, the maturity date will be May 2, 2025, and (c) if, on December 15, 2025, more than \$300 million of NCLC’s 5.875% senior notes due 2026 remain outstanding and the remainder has not been repaid or refinanced with indebtedness maturing after January 16, 2027, the maturity date will be December 15, 2025. The Revolving Loan Facility will accrue interest (x) in the case of alternate base rate loans, at a per annum rate based on an alternate base rate plus a margin of between 0.00% and 1.25% and (y) in the case of term benchmark loans, at a per annum rate based on the adjusted term Secured Overnight Financing Rate plus a margin of between 1.00% and 2.25%. The Revolving Loan Facility commitments will accrue an unused commitment fee

[Table of Contents](#)

on the amount of available unused commitments at a rate of between 0.15% and 0.30%. The applicable margin and unused commitment fee will depend on the total leverage ratio as of the applicable date.

The Sixth ARCA also (a) increased the basket for Permitted Additional Debt (as defined in the Sixth ARCA) and increased the amount of such additional debt that may be secured on assets that are not collateral and (b) extended certain financial covenants through the amended maturity date. As described above, NCLC used the net proceeds from the 2029 Senior Secured Notes offering, together with cash on hand, to repay all of the Term Loan A Facility, including to pay any accrued and unpaid interest thereon, as well as related premiums, fees and expenses. No term loans are outstanding under the Sixth ARCA.

Exchangeable Notes

The following is a summary of NCLC's exchangeable notes as of September 30, 2023 (in thousands):

	Principal Amount	Unamortized Deferred Financing Fees	Net Carrying Amount	Fair Value	
				Amount	Leveling
2024 Exchangeable Notes (1)	\$ 146,601	\$ (947)	\$ 145,654	\$ 188,010	Level 2
2025 Exchangeable Notes	449,990	(4,618)	445,372	514,978	Level 2
2027 1.125% Exchangeable Notes	1,150,000	(19,351)	1,130,649	962,136	Level 2
2027 2.5% Exchangeable Notes	473,175	(8,459)	464,716	411,662	Level 2

(1) Classified within current portion of long-term debt as of September 30, 2023. We expect that the holders of the 2024 Exchangeable Notes will exchange their 2024 Exchangeable Notes for shares.

The following is a summary of NCLC's exchangeable notes as of December 31, 2022 (in thousands):

	Principal Amount	Unamortized Deferred Financing Fees	Net Carrying Amount	Fair Value	
				Amount	Leveling
2024 Exchangeable Notes	\$ 146,601	\$ (1,993)	\$ 144,608	\$ 161,840	Level 2
2025 Exchangeable Notes	450,000	(6,312)	443,688	433,580	Level 2
2027 1.125% Exchangeable Notes	1,150,000	(23,457)	1,126,543	763,830	Level 2
2027 2.5% Exchangeable Notes	473,175	(10,184)	462,991	331,743	Level 2

The following provides a summary of the interest expense of NCLC's exchangeable notes (in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2023	2022	2023	2022
	Coupon interest	\$ 14,438	\$ 14,405	\$ 43,313
Amortization of deferred financing fees	3,072	3,005	8,571	8,145
Total	\$ 17,510	\$ 17,410	\$ 51,884	\$ 49,466

As of September 30, 2023, the effective interest rate is 7.04%, 5.97%, 1.64% and 3.06% for the 2024 Exchangeable Notes, 2025 Exchangeable Notes, 2027 1.125% Exchangeable Notes and 2027 2.5% Exchangeable Notes, respectively.

Debt Repayments

The following are scheduled principal repayments on our long-term debt including exchangeable notes, which can be settled in shares, and finance lease obligations as of September 30, 2023 (in thousands):

Year	Amount
Remainder of 2023	\$ 347,240
2024	1,782,094
2025	1,974,029
2026	2,185,156
2027	3,237,816
2028	1,894,305
Thereafter	2,792,745
Total	\$ 14,213,385

Debt Covenants

As of September 30, 2023, we were in compliance with all of our debt covenants. If we do not continue to remain in compliance with our covenants, we would have to seek additional amendments to or waivers of our covenants. However, no assurances can be made that such amendments or waivers would be approved by our lenders. Generally, if an event of default under any debt agreement occurs, then pursuant to cross default and/or cross acceleration clauses, substantially all of our outstanding debt and derivative contract payables could become due, and all debt and derivative contracts could be terminated, which would have a material adverse impact on our operations and liquidity.

8. Fair Value Measurements and Derivatives

Fair value is defined as the price at which an orderly transaction to sell an asset or to transfer a liability would take place between market participants at the measurement date under current market conditions (that is, an exit price at the measurement date from the perspective of a market participant that holds the asset or owes the liability).

Fair Value Hierarchy

The following hierarchy for inputs used in measuring fair value should maximize the use of observable inputs and minimize the use of unobservable inputs by requiring that the most observable inputs be used when available:

- Level 1 Quoted prices in active markets for identical assets or liabilities that are accessible at the measurement dates.
- Level 2 Significant other observable inputs that are used by market participants in pricing the asset or liability based on market data obtained from independent sources.
- Level 3 Significant unobservable inputs we believe market participants would use in pricing the asset or liability based on the best information available.

Derivatives

We are exposed to market risk attributable to changes in interest rates, foreign currency exchange rates and fuel prices. We attempt to minimize these risks through a combination of our normal operating and financing activities and through the use of derivatives. We assess whether derivatives used in hedging transactions are “highly effective” in offsetting changes in the cash flow of our hedged forecasted transactions. We use critical terms match or regression analysis for hedge relationships and high effectiveness is achieved when a statistically valid relationship reflects a high degree of offset and correlation between the fair values of the derivative and the hedged forecasted transaction. Cash flows from the derivatives are classified in the same category as the cash flows from the underlying hedged transaction. If it is determined that the hedged forecasted transaction is no longer probable of occurring, then the amount recognized in accumulated other comprehensive income (loss) is released to earnings. There are no amounts excluded from the

[Table of Contents](#)

assessment of hedge effectiveness, and there are no credit-risk-related contingent features in our derivative agreements. We monitor concentrations of credit risk associated with financial and other institutions with which we conduct significant business. Credit risk, including but not limited to counterparty non-performance under derivatives, is not considered significant, as we primarily conduct business with large, well-established financial institutions with which we have established relationships, and which have credit risks acceptable to us, or the credit risk is spread out among many creditors. We do not anticipate non-performance by any of our significant counterparties.

As of September 30, 2023, we had fuel swaps, which are used to mitigate the financial impact of volatility of fuel prices pertaining to approximately 345 thousand metric tons of our projected fuel purchases, maturing through December 31, 2024.

As of September 30, 2023, we had fuel swaps pertaining to approximately 10 thousand metric tons of our projected fuel purchases which were not designated as cash flow hedges maturing through March 31, 2024.

As of September 30, 2023, we had foreign currency forward contracts which are used to mitigate the financial impact of volatility in foreign currency exchange rates related to our ship construction contracts denominated in euros. The notional amount of our hedged foreign currency forward contracts was €438.8 million, or \$463.9 million based on the euro/U.S. dollar exchange rate as of September 30, 2023.

The derivatives measured at fair value and the respective location in the consolidated balance sheets include the following (in thousands):

	Balance Sheet Location	Assets		Liabilities	
		September 30, 2023	December 31, 2022	September 30, 2023	December 31, 2022
Derivative Contracts Designated as Hedging Instruments					
Fuel contracts					
	Prepaid expenses and other assets	\$ 41,928	\$ 53,224	\$ 6	\$ 7,137
	Other long-term assets	6,155	3,869	—	655
Foreign currency contracts					
	Prepaid expenses and other assets	—	3,617	—	—
	Accrued expenses and other liabilities	1,083	4,386	57,591	177,746
Total derivatives designated as hedging instruments		<u>\$ 49,166</u>	<u>\$ 65,096</u>	<u>\$ 57,597</u>	<u>\$ 185,538</u>
Derivative Contracts Not Designated as Hedging Instruments					
Fuel contracts					
	Prepaid expenses and other assets	\$ 639	\$ 84	\$ —	\$ 348
	Other long-term assets	—	—	—	191
Total derivatives not designated as hedging instruments		<u>\$ 639</u>	<u>\$ 84</u>	<u>\$ —</u>	<u>\$ 539</u>
Total derivatives		<u>\$ 49,805</u>	<u>\$ 65,180</u>	<u>\$ 57,597</u>	<u>\$ 186,077</u>

The fair values of swap and forward contracts are determined based on inputs that are readily available in public markets or can be derived from information available in publicly quoted markets. The Company determines the value of options and collars utilizing an option pricing model based on inputs that are either readily available in public markets or can be derived from information available in publicly quoted markets. The option pricing model used by the Company is an industry standard model for valuing options and is used by the broker/dealer community. The inputs to this option pricing model are the option strike price, underlying price, risk-free rate of interest, time to expiration, and volatility. The fair value of option contracts considers both the intrinsic value and any remaining time value associated with those derivatives that have not yet settled. The Company also considers counterparty credit risk and its own credit risk in its determination of all estimated fair values.

Our derivatives and financial instruments were categorized as Level 2 in the fair value hierarchy, and we had no derivatives or financial instruments categorized as Level 1 or Level 3. Our derivative contracts include rights of offset with our counterparties. We have elected to net certain assets and liabilities within counterparties when the rights of offset exist. We are not required to post cash collateral related to our derivative instruments.

[Table of Contents](#)

The following table discloses the gross and net amounts recognized within assets and liabilities (in thousands):

	Gross Amounts	Gross Amounts Offset	Total Net Amounts	Gross Amounts Not Offset	Net Amounts
September 30, 2023					
Assets	\$ 48,722	\$ (6)	\$ 48,716	\$ —	\$ 48,716
Liabilities	57,591	(1,083)	56,508	(46,878)	9,630
December 31, 2022

Long-Term Debt

As of September 30, 2023 and December 31, 2022, the fair value of our long-term debt, including the current portion, was \$12.7 billion and \$11.9 billion, respectively, which was \$1.5 billion and \$2.0 billion lower, respectively, than the carrying values, excluding deferred financing costs. The difference between the fair value and carrying value of our long-term debt is due to our fixed and variable rate debt obligations carrying interest rates that are above or below market rates at the measurement dates. The fair value of our long-term revolving and term loan facilities was calculated based on estimated rates for the same or similar instruments with similar terms and remaining maturities. The fair value of our exchangeable notes considers observable risk-free rates; credit spreads of the same or similar instruments; and share prices, tenors, and historical and implied volatilities which are sourced from observable market data. The inputs are considered to be Level 2 in the fair value hierarchy. Market risk associated with our long-term variable rate debt is the potential increase in interest expense from an increase in interest rates or from an increase in share values.

Other

The carrying amounts reported in the consolidated balance sheets of all other financial assets and liabilities approximate fair value.

9. Employee Benefits and Compensation Plans

In January 2013, NCLH adopted the 2013 Performance Incentive Plan, which provided for the issuance of up to 15,035,106 of NCLH's ordinary shares pursuant to awards granted under the plan. In May 2016, May 2021 and June 2022, the plan was amended and restated (the "Restated 2013 Plan") pursuant to approval from the Board of Directors and NCLH's shareholders. Among other things, under the Restated 2013 Plan, the number of NCLH's ordinary shares that could have been delivered pursuant to all awards granted under the plan was increased to a maximum aggregate limit of 39,375,106 shares. In June 2023, NCLH's shareholders approved a further amendment and restatement of the Restated 2013 Plan to increase the number of NCLH ordinary shares that may be delivered by 2,633,900, resulting in an increase in the maximum aggregate limit to 42,009,006 shares.

Restricted Share Unit Awards

In March 2023, NCLH granted 5.8 million time-based restricted share unit awards to our employees, which primarily vest in substantially equal installments over three years. Additionally, in March 2023, NCLH granted 0.8 million performance-based restricted share units to certain members of our management team, which vest upon the achievement

[Table of Contents](#)

of certain pre-established performance targets established through 2025 and the satisfaction of an additional time-based vesting requirement that generally requires continued employment through March 1, 2026.

The following is a summary of restricted share unit activity for the nine months ended September 30, 2023:

	Number of Time-Based Awards	Weighted-Average Grant Date Fair Value	Number of Performance-Based Awards	Weighted-Average Grant Date Fair Value	Number of Market-Based Awards	Weighted-Average Grant Date Fair Value
Non-vested as of January 1, 2023	6,980,707	\$ 22.83	2,749,939	\$ 26.30	50,000	\$ 59.43
Granted	6,051,412	15.19	1,155,674	16.35	—	—

Share Option Awards

The following table sets forth a summary of option activity under NCLH's Restated 2013 Plan for the period presented:

	Number of Share Option Awards			Weighted-Average Exercise Price			Weighted-Average Contractual Term (years)	Aggregate Intrinsic Value (in thousands)
	Time-Based Awards	Performance-Based Awards	Market-Based Awards	Time-Based Awards	Performance-Based Awards	Market-Based Awards		
Outstanding as of January 1, 2023	4,198,595	114,583	208,333	\$ 51.92	\$ 59.43	\$ 59.43	2.29	\$ —
Forfeited and cancelled	(607,739)	—	(208,333)	45.47	—	59.43	—	—
Outstanding as of September 30, 2023	3,590,856	114,583	—	53.01	59.43	—	1.49	—

The compensation expense recognized for share-based compensation for the periods presented include the following (in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2023	2022	2023	2022
Payroll and related expense	\$ 4,592	\$ 4,677	\$ 13,925	\$ 16,613
Marketing, general and administrative expense	18,971	21,406	82,329	72,310
Total share-based compensation expense	\$ 23,563	\$ 26,083	\$ 96,254	\$ 88,923

10. Commitments and Contingencies

Ship Construction Contracts

For the Norwegian brand, we have four Prima Class Ships on order, each ranging from approximately 156,300 to 169,000 Gross Tons with 3,450 or more Berths, with currently scheduled delivery dates from 2025 through 2028. For the Regent brand, we have an order for one Explorer Class Ship to be delivered in 2023, which will be approximately 55,000 Gross Tons and 750 Berths. For the Oceania Cruises brand, we have an order for one additional Allura Class Ship to be delivered in 2025, which will be approximately 67,000 Gross Tons and 1,200 Berths. The impacts of initiatives to improve environmental sustainability and modifications the Company plans to make to its newbuilds and/or other macroeconomic conditions and events have resulted in delays in expected ship deliveries. These and other impacts could result in additional delays in ship deliveries in the future, which may be prolonged.

The combined contract prices, including amendments and change orders, of the six ships on order for delivery as of September 30, 2023 was approximately €6.3 billion, or \$6.7 billion based on the euro/U.S. dollar exchange rate as of September 30, 2023. We have obtained export credit financing which is expected to fund approximately 80% of the contract price of each ship and related financing premiums, subject to certain conditions. We do not anticipate any contractual breaches or cancellations to occur. However, if any such events were to occur, it could result in, among other

things, the forfeiture of prior deposits or payments made by us and potential claims and impairment losses which may materially impact our business, financial condition and results of operations.

Litigation

Investigations

In March 2020, the Florida Attorney General announced an investigation related to the Company's marketing during the COVID-19 pandemic. Following the announcement of the investigation by the Florida Attorney General, we received notifications from other attorneys general and governmental agencies that they are conducting similar investigations. The Company is cooperating with these ongoing investigations, the outcomes of which cannot be predicted at this time.

Helms-Burton Act

On August 27, 2019, two lawsuits were filed against Norwegian Cruise Line Holdings Ltd. in the United States District Court for the Southern District of Florida under Title III of the Cuban Liberty and Solidarity (Libertad) Act of 1996, also known as the Helms-Burton Act. The complaint filed by Javier Garcia-Bengochea (the "Garcia-Bengochea Matter") alleges that he holds an interest in the Port of Santiago, Cuba, and the complaint filed by Havana Docks Corporation (the "Havana Docks Matter") alleges it holds an interest in the Havana Cruise Port Terminal, both of which were expropriated by the Cuban Government. The complaints further allege that the Company "trafficked" in those properties by embarking and disembarking passengers at these facilities, as well as profiting from the Cuban Government's possession of the property. The plaintiffs seek all available statutory remedies, including the value of the expropriated property, plus interest, treble damages, attorneys' fees and costs. On September 1, 2020, the district court in the Garcia-Bengochea Matter entered an order staying all case deadlines and administratively closed the case pending the outcome of an appeal in a related case brought by the same plaintiff, in which the district court granted another cruise line defendant judgment on the pleadings. As to the appeal in the related case, in November 2022, the Eleventh Circuit issued an opinion affirming the dismissal and, on February 8, 2023, issued its mandate to the district court. After the April 10, 2023 deadline for filing a petition for certiorari with the U.S. Supreme Court passed in the related appeals with the plaintiff taking no action there, on April 19, 2023, the plaintiff voluntarily dismissed with prejudice the action against the Company. In the Havana Docks Matter, after various motions challenging the sufficiency of plaintiff's complaint were resolved and voluminous discovery was completed, both sides filed motions for summary judgment. On March 21, 2022, the court issued an order granting plaintiff's motion for summary judgment on the issue of liability and denying the Company's cross-motion for summary judgment. The court scheduled a trial on determination of damages only for November 2022. The plaintiff elected to seek what the court ruled to be its baseline statutory damage amount, which was the amount of the certified claim plus interest, trebled and with attorneys' fees. Given this, there was no fact issue to be tried, and the matter was removed from the trial calendar. On December 30, 2022, the court entered a final judgment of approximately \$112.9 million and, on January 23, 2023, the Company filed a notice of appeal from that judgment. On April 12, 2023, the Company posted a sufficient supersedeas bond with the court to prevent any efforts by the plaintiff to collect on the judgment pending the appeal. On June 30, 2023, the Company filed its opening appellate brief with the United States Court of Appeals for the Eleventh Circuit. On September 29, 2023, the plaintiff filed its answering brief responding to the Company's opening brief in the Eleventh Circuit. For the Havana Docks Matter, we believe that the likelihood of loss is reasonably possible but not probable at this time; therefore, no liability has been recorded. The ability to make such estimates and judgments can be affected by various factors including, among other things: lack of legal precedent, stage of the proceedings, legal uncertainties inherent within the litigation process, availment of appellate remedies, and involvement of numerous parties. We continue to believe we have meritorious defenses to the Havana Docks Matter. However, if the plaintiff prevails in the final outcome of this matter, there may be a material adverse impact on the Company's financial condition, results of operations and/or cash flows.

Other

We are a party to a claim against a vendor which resulted in a verdict of approximately \$159 million in favor of the Company in October 2022. The court entered a final judgment of approximately that amount in February 2023. Thereafter, the vendor posted a bond and appealed the judgment. On July 12, 2023, the vendor filed its initial appellate

brief. At this time, there can be no assurance that the Company will ultimately prevail in the final outcome of this claim, and no receivable has been recognized by the Company.

In the normal course of our business, various other claims and lawsuits have been filed or are pending against us. Most of these claims and lawsuits are covered by insurance and, accordingly, the maximum amount of our liability is typically limited to our deductible amount. Nonetheless, the ultimate outcome of these claims and lawsuits that are not covered by insurance cannot be determined at this time. We have evaluated our overall exposure with respect to all of our threatened and pending litigation and, to the extent required, we have accrued amounts for all estimable probable losses associated with our deemed exposure. We are currently unable to estimate any other potential losses beyond those accrued, as discovery is not complete nor is adequate information available to estimate such range of loss or potential recovery. However, based on our current knowledge, we do not believe that the aggregate amount or range of reasonably possible losses with respect to these matters will be material to our consolidated results of operations, financial condition or cash flows. We intend to vigorously defend our legal position on all claims and, to the extent necessary, seek recovery.

Other Contingencies

The Company also has agreements with its credit card processors that govern approximately \$2.8 billion in advance ticket sales at September 30, 2023 that have been received by the Company relating to future voyages. These agreements allow the credit card processors to require under certain circumstances, including the existence of a material adverse change, excessive chargebacks and other triggering events, that the Company maintain a reserve which would be satisfied by posting collateral. Although the agreements vary, these requirements may generally be satisfied either through a percentage of customer payments withheld or providing cash funds directly to the card processor. Any cash reserve or collateral requested could be increased or decreased. As of September 30, 2023, we had cash reserves of approximately \$42.0 million with credit card processors recognized in accounts receivable, net. During the nine months ended September 30, 2023, the Company received a return of cash collateral from one credit card processor of \$500 million, which was previously classified as other long-term assets. We may be required to pledge additional collateral and/or post additional cash reserves or take other actions in the future that may adversely affect our liquidity.

11. Other Income (Expense), Net

For the three and nine months ended September 30, 2023, other income (expense), net consisted of income of \$12.1 million and losses of \$4.9 million, respectively, primarily due to net gains and losses on foreign currency remeasurements. For the three and nine months ended September 30, 2022, other income (expense), net consisted of income of \$31.5 million and \$100.6 million, respectively, primarily due to gains on foreign currency remeasurements.

12. Supplemental Cash Flow Information

For the nine months ended September 30, 2023 and 2022, we had non-cash investing activities consisting of changes in accruals related to property and equipment of \$57.0 million and \$101.7 million, respectively.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Cautionary Statement Concerning Forward-Looking Statements

Some of the statements, estimates or projections contained in this report are "forward-looking statements" within the meaning of the U.S. federal securities laws intended to qualify for the safe harbor from liability established by the Private Securities Litigation Reform Act of 1995. All statements other than statements of historical facts contained, or incorporated by reference, in this report, including, without limitation, those regarding our business strategy, financial position, results of operations, plans, prospects, actions taken or strategies being considered with respect to our liquidity position, valuation and appraisals of our assets and objectives of management for future operations (including those regarding expected fleet additions, our expectations regarding the impact of macroeconomic conditions and recent global events, our expectations regarding cruise voyage occupancy, operational position, demand for voyages, plans or goals for our sustainability program and decarbonization efforts, our expectations for future cash flows and profitability, financing opportunities and extensions, and efforts to reduce operating expenses and capital expenditures) are forward-looking statements. Many, but not all, of these statements can be found by looking for words like "expect," "anticipate," "goal," "project," "plan," "believe," "seek," "will," "may," "forecast," "estimate," "intend," "future" and similar words. Forward-looking statements do not guarantee future performance and may involve risks, uncertainties and other factors which could cause our actual results, performance or achievements to differ materially from the future results, performance or achievements expressed or implied in those forward-looking statements. Examples of these risks, uncertainties and other factors include, but are not limited to the impact of:

- adverse general economic factors, such as fluctuating or increasing levels of interest rates, inflation, unemployment, underemployment and the volatility of fuel prices, declines in the securities and real estate markets, and perceptions of these conditions that decrease the level of disposable income of consumers or consumer confidence;
- the spread of epidemics, pandemics and viral outbreaks, including the COVID-19 pandemic, and their effect on the ability or desire of people to travel (including on cruises), which has adversely impacted and may continue to adversely impact our results, operations, outlook, plans, goals, growth, reputation, cash flows, liquidity, demand for voyages and share price;
- implementing precautions in coordination with regulators and global public health authorities to protect the health, safety and security of guests, crew and the communities we visit and to comply with related regulatory restrictions;
- our indebtedness and restrictions in the agreements governing our indebtedness that require us to maintain minimum levels of liquidity and be in compliance with maintenance covenants and otherwise limit our flexibility in operating our business, including the significant portion of assets that are collateral under these agreements;
- our ability to work with lenders and others or otherwise pursue options to defer, renegotiate, refinance or restructure our existing debt profile, near-term debt amortization, newbuild related payments and other obligations and to work with credit card processors to satisfy current or potential future demands for collateral on cash advanced from customers relating to future cruises;
- our need for additional financing or financing to optimize our balance sheet, which may not be available on favorable terms, or at all, and our outstanding exchangeable notes and any future financing which may be dilutive to existing shareholders;
- the unavailability of ports of call;
- future increases in the price of, or major changes, disruptions or reduction in, commercial airline services;

[Table of Contents](#)

- changes involving the tax and environmental regulatory regimes in which we operate, including new regulations aimed at reducing greenhouse gas emissions;
- the accuracy of any appraisals of our assets as a result of the impact of the COVID-19 pandemic or otherwise;
- our success in controlling operating expenses and capital expenditures;
- trends in, or changes to, future bookings and our ability to take future reservations and receive deposits related thereto;
- adverse events impacting the security of travel, or customer perceptions of the security of travel, such as terrorist acts, armed conflict, such as Russia's invasion of Ukraine or the Israel-Hamas war, or threats thereof, acts of piracy, and other international events;
- adverse incidents involving cruise ships;
- breaches in data security or other disturbances to our information technology and other networks or our actual or perceived failure to comply with requirements regarding data privacy and protection;
- changes in fuel prices and the type of fuel we are permitted to use and/or other cruise operating costs;
- mechanical malfunctions and repairs, delays in our shipbuilding program, maintenance and refurbishments and the consolidation of qualified shipyard facilities;
- the risks and increased costs associated with operating internationally;
- our inability to recruit or retain qualified personnel or the loss of key personnel or employee relations issues;
- impacts related to climate change and our ability to achieve our climate-related or other sustainability goals;
- our inability to obtain adequate insurance coverage;
- pending or threatened litigation, investigations and enforcement actions;
- volatility and disruptions in the global credit and financial markets, which may adversely affect our ability to borrow and could increase our counterparty credit risks, including those under our credit facilities, derivatives, contingent obligations, insurance contracts and new ship progress payment guarantees;
- any further impairment of our trademarks, trade names or goodwill;
- our reliance on third parties to provide hotel management services for certain ships and certain other services;
- fluctuations in foreign currency exchange rates;
- our expansion into new markets and investments in new markets and land-based destination projects;
- overcapacity in key markets or globally; and
- other factors set forth under "Risk Factors" herein and in our Annual Report on Form 10-K for the year ended December 31, 2022, filed with the SEC on February 28, 2023 ("Annual Report on Form 10-K").

[Table of Contents](#)

The above examples are not exhaustive and new risks emerge from time to time. There may be additional risks that we consider immaterial or which are unknown. Such forward-looking statements are based on our current beliefs, assumptions, expectations, estimates and projections regarding our present and future business strategies and the environment in which we expect to operate in the future. These forward-looking statements speak only as of the date made. We expressly disclaim any obligation or undertaking to release publicly any updates or revisions to any forward-looking statement to reflect any change in our expectations with regard thereto or any change of events, conditions or circumstances on which any such statement was based, except as required by law.

Terminology

This report includes certain non-GAAP financial measures, such as Adjusted Gross Margin, Net Yield, Net Cruise Cost, Adjusted Net Cruise Cost Excluding Fuel, Adjusted EBITDA, Adjusted Net Income (Loss) and Adjusted EPS. Definitions of these non-GAAP financial measures are included below. For further information about our non-GAAP financial measures including detailed adjustments made in calculation our non-GAAP financial measures and a reconciliation to the most directly comparable GAAP financial measure, we refer you to “Results of Operations” below.

Unless otherwise indicated in this report, the following terms have the meanings set forth below:

- *2024 Exchangeable Notes*. On May 8, 2020, pursuant to an indenture among NCLC, as issuer, NCLH, as guarantor, and U.S. Bank National Association, as trustee, NCLC issued \$862.5 million aggregate principal amount of exchangeable senior notes due 2024.
- *2025 Exchangeable Notes*. On July 21, 2020, pursuant to an indenture among NCLC, as issuer, NCLH, as guarantor, and U.S. Bank National Association, as trustee, NCLC issued \$450.0 million aggregate principal amount of exchangeable senior notes due 2025.
- *2027 1.125% Exchangeable Notes*. On November 19, 2021, pursuant to an indenture among NCLC, as issuer, NCLH, as guarantor, and U.S. Bank National Association, as trustee, NCLC issued \$1,150.0 million aggregate principal amount of exchangeable senior notes due 2027.
- *2027 2.5% Exchangeable Notes*. On February 15, 2022, pursuant to an indenture among NCLC, as issuer, NCLH, as guarantor, and U.S. Bank National Association, as trustee, NCLC issued \$473.2 million aggregate principal amount of exchangeable senior notes due 2027.
- *Adjusted EBITDA*. EBITDA adjusted for other income (expense), net and other supplemental adjustments.
- *Adjusted EPS*. Adjusted Net Income (Loss) divided by the number of diluted weighted-average shares outstanding.
- *Adjusted Gross Margin*. Gross margin adjusted for payroll and related, fuel, food, other and ship depreciation. Gross margin is calculated pursuant to GAAP as total revenue less total cruise operating expense and ship depreciation.
- *Adjusted Net Cruise Cost Excluding Fuel*. Net Cruise Cost Excluding Fuel adjusted for supplemental adjustments.
- *Adjusted Net Income (Loss)*. Net income (loss) adjusted for the effect of dilutive securities and other supplemental adjustments.
- *Allura Class Ships*. Oceania Cruises’ Vista and Oceania Cruises’ Allura.
- *Berths*. Double occupancy capacity per cabin (single occupancy per studio cabin) even though many cabins can accommodate three or more passengers.

[Table of Contents](#)

- *Capacity Days*. Berths available for sale multiplied by the number of cruise days for the period for ships in service.
- *Dry-dock*. A process whereby a ship is positioned in a large basin where all of the fresh/sea water is pumped out in order to carry out cleaning and repairs of those parts of a ship which are below the water line.
- *EBITDA*. Earnings before interest, taxes, and depreciation and amortization.
- *EPS*. Earnings (loss) per share.
- *Explorer Class Ships*. Regent's Seven Seas Explorer, Seven Seas Splendor, and Seven Seas Grandeur.
- *GAAP*. Generally accepted accounting principles in the U.S.
- *Gross Cruise Cost*. The sum of total cruise operating expense and marketing, general and administrative expense.
- *Gross Tons*. A unit of enclosed passenger space on a cruise ship, such that one gross ton equals 100 cubic feet or 2.831 cubic meters.
- *Net Cruise Cost*. Gross Cruise Cost less commissions, transportation and other expense and onboard and other expense.
- *Net Cruise Cost Excluding Fuel*. Net Cruise Cost less fuel expense.
- *Net Yield*. Adjusted Gross Margin per Capacity Day.
- *Occupancy or Occupancy Percentage*. The ratio of Passenger Cruise Days to Capacity Days. A percentage greater than 100% indicates that three or more passengers occupied some cabins.
- *Passenger Cruise Days*. The number of passengers carried for the period, multiplied by the number of days in their respective cruises.
- *Prima Class Ships*. Norwegian Prima, Norwegian Viva and four additional ships on order.
- *Revolving Loan Facility*. \$875 million senior secured revolving credit facility as of September 30, 2023, which was increased to \$1.2 billion in October 2023.
- *SEC*. U.S. Securities and Exchange Commission.
- *Senior Secured Credit Facility*. The Credit Agreement, originally dated as of May 24, 2013, as amended and restated on October 31, 2014, June 6, 2016, October 10, 2017, January 2, 2019 and May 8, 2020, and as further amended on January 29, 2021, March 25, 2021, November 12, 2021 and December 6, 2022, by and among NCLC and Voyager Vessel Company, LLC, as co-borrowers, JPMorgan Chase Bank, N.A., as administrative agent and as collateral agent, and various lenders and agents, providing for a senior secured credit facility consisting of (i) the Revolving Loan Facility and (ii) the Term Loan A Facility.
- *Shipboard Retirement Plan*. An unfunded defined benefit pension plan for certain crew members which computes benefits based on years of service, subject to certain requirements.

[Table of Contents](#)

- *Term Loan A Facility*. The senior secured term loan A facility having an outstanding principal amount of approximately \$0.8 billion as of September 30, 2023. The Term Loan A Facility was fully repaid in October 2023.

Non-GAAP Financial Measures

We use certain non-GAAP financial measures, such as Adjusted Gross Margin, Net Yield, Net Cruise Cost, Adjusted Net Cruise Cost Excluding Fuel, Adjusted EBITDA, Adjusted Net Income (Loss) and Adjusted EPS, to enable us to analyze our performance. See “Terminology” for the definitions of these and other non-GAAP financial measures. We utilize Adjusted Gross Margin and Net Yield to manage our business on a day-to-day basis because they reflect revenue earned net of certain direct variable costs. We also utilize Net Cruise Cost and Adjusted Net Cruise Cost Excluding Fuel to manage our business on a day-to-day basis. In measuring our ability to control costs in a manner that positively impacts net income (loss), we believe changes in Adjusted Gross Margin, Net Yield, Net Cruise Cost and Adjusted Net Cruise Cost Excluding Fuel to be the most relevant indicators of our performance. Per Capacity Day data is not presented for the three or nine months ended September 30, 2022 as we do not consider it meaningful for comparison purposes due to our phased restart of cruise operations, which was completed in May 2022.

We believe that Adjusted EBITDA is appropriate as a supplemental financial measure as it is used by management to assess operating performance. We also believe that Adjusted EBITDA is a useful measure in determining our performance as it reflects certain operating drivers of our business, such as sales growth, operating costs, marketing, general and administrative expense and other operating income and expense. In addition, management uses Adjusted EBITDA as a performance measure for our incentive compensation. Adjusted EBITDA is not a defined term under GAAP nor is it intended to be a measure of liquidity or cash flows from operations or a measure comparable to net income (loss), as it does not take into account certain requirements such as capital expenditures and related depreciation, principal and interest payments and tax payments and it includes other supplemental adjustments.

In addition, Adjusted Net Income (Loss) and Adjusted EPS are non-GAAP financial measures that exclude certain amounts and are used to supplement GAAP net income (loss) and EPS. We use Adjusted Net Income (Loss) and Adjusted EPS as key performance measures of our earnings performance. We believe that both management and investors benefit from referring to these non-GAAP financial measures in assessing our performance and when planning, forecasting and analyzing future periods. These non-GAAP financial measures also facilitate management’s internal comparison to our historical performance. In addition, management uses Adjusted EPS as a performance measure for our incentive compensation. The amounts excluded in the presentation of these non-GAAP financial measures may vary from period to period; accordingly, our presentation of Adjusted Net Income (Loss) and Adjusted EPS may not be indicative of future adjustments or results.

You are encouraged to evaluate each adjustment used in calculating our non-GAAP financial measures and the reasons we consider our non-GAAP financial measures appropriate for supplemental analysis. In evaluating our non-GAAP financial measures, you should be aware that in the future we may incur expenses similar to the adjustments in our presentation. Our non-GAAP financial measures have limitations as analytical tools, and you should not consider these measures in isolation or as a substitute for analysis of our results as reported under GAAP. Our presentation of our non-GAAP financial measures should not be construed as an inference that our future results will be unaffected by unusual or non-recurring items. Our non-GAAP financial measures may not be comparable to other companies. Please see a historical reconciliation of these measures to the most comparable GAAP measure presented in our consolidated financial statements below in the “Results of Operations” section.

Financial Presentation

We categorize revenue from our cruise and cruise-related activities as either “passenger ticket” revenue or “onboard and other” revenue. Passenger ticket revenue and onboard and other revenue vary according to product offering, the size of the ship in operation, the length of cruises operated and the markets in which the ship operates. Our revenue is seasonal based on demand for cruises, which has historically been strongest during the Northern Hemisphere’s summer months; however, our cruise voyages were completely suspended from March 2020 until July 2021 due to the COVID-19 pandemic and our resumption of cruise voyages was phased in gradually, with full operation of our fleet resumed in May

[Table of Contents](#)

2022. Passenger ticket revenue primarily consists of revenue for accommodations, meals in certain restaurants on the ship, certain onboard entertainment, port fees and taxes and includes revenue for service charges and air and land transportation to and from the ship to the extent guests purchase these items from us. Onboard and other revenue primarily consists of revenue from casino, beverage sales, shore excursions, specialty dining, retail sales, spa services and Wi-Fi services. Our onboard revenue is derived from onboard activities we perform directly or that are performed by independent concessionaires, from which we receive a share of their revenue.

Our cruise operating expense is classified as follows:

- Commissions, transportation and other primarily consists of direct costs associated with passenger ticket revenue. These costs include travel advisor commissions, air and land transportation expenses, related credit card fees, certain port fees and taxes and the costs associated with shore excursions and hotel accommodations included as part of the overall cruise purchase price.
- Onboard and other primarily consists of direct costs incurred in connection with onboard and other revenue, including casino, beverage sales and shore excursions.
- Payroll and related consists of the cost of wages and benefits for shipboard employees and costs of certain inventory items, including food, for a third party that provides crew and other hotel services for certain ships.
- Fuel includes fuel costs, the impact of certain fuel hedges and fuel delivery costs.
- Food consists of food costs for passengers and crew on certain ships.
- Other consists of repairs and maintenance (including Dry-dock costs), ship insurance and other ship expenses.

Critical Accounting Policies

For a discussion of our critical accounting policies and estimates, see “Critical Accounting Policies” included in our Annual Report on Form 10-K under the caption “Management’s Discussion and Analysis of Financial Condition and Results of Operations.” We have made no significant changes to our critical accounting policies and estimates from those described in our Annual Report on Form 10-K.

Financing Transactions

In February 2023, NCLC issued \$600 million aggregate principal amount of 8.375% senior secured notes due 2028. The proceeds from the notes were used to repay the loans outstanding under our Term Loan A Facility that otherwise would have become due in January 2024, including to pay any accrued and unpaid interest thereon, as well as related premiums, fees and expenses.

In February 2023, our \$1 billion commitment letter was extended through February 2024, with an option for NCLC to further extend the commitments through February 2025 at its election. Simultaneously, the amount of the commitment was reduced to \$650 million, which may be drawn in up to two draws, and in connection with the execution of the amended commitment letter, NCLC issued \$250 million aggregate principal amount of 9.75% senior secured notes due 2028. NCLC used the net proceeds for general corporate purposes.

In October 2023, NCLC issued \$790 million aggregate principal amount of 8.125% senior secured notes due 2029. The proceeds from the notes, together with cash on hand, were used to repay the Term Loan A Facility, including to pay any accrued and unpaid interest thereon, as well as related premiums, fees and expenses.

Also in October 2023, the Senior Secured Credit Facility was amended and restated, which among other things, increased the aggregate amount of the lenders’ revolving facility commitments from \$875 million to \$1.2 billion. No term loans remain outstanding.

See Note 7 – “Long-Term Debt” for more information.

Update on Bookings

The Company continues to experience healthy consumer demand with the cumulative booked position for the fourth quarter of 2023 ahead of 2019 levels at continued higher pricing. On a 12-month forward basis the Company also continues to be within its optimal booked position and at higher pricing. However, because of our cancellation policies, bookings may not be representative of actual revenues. Onboard revenue generation remains robust with broad-based strength across all revenue streams.

During the third quarter and into the fourth quarter, the Company experienced operational impacts from global events including the wildfires in Maui and the escalating conflict in Israel.

Pride of America, which offers year-round inter-island Hawaii itineraries, modified certain itineraries in August to avoid stressing local resources in Maui. Beginning in early September, with the guidance and encouragement of the Hawaii Governor and Hawaii Tourism Authority, the Company resumed scheduled weekly calls to Kahului, Maui. However, following the wildfires the Company experienced a temporary slowdown in close-in bookings for sailings in Hawaii, primarily concentrated in the fourth quarter of 2023. Demand has improved in recent weeks and is now approaching normalized levels. In addition to Pride of America, the Company also had one additional ship operating in the region, Norwegian Spirit, bringing total capacity with calls to Hawaii to approximately 6% for the fourth quarter of 2023.

In addition, as a result of the escalation of the conflict in Israel, the Company has cancelled and redirected all calls to Israel and certain calls to the surrounding region for the remainder of 2023. The Company is also in the process of cancelling all calls to Israel in 2024 as well and will continue to closely monitor and evaluate future sailings and adjust as needed. Prior to the conflict, approximately 7% of capacity in the fourth quarter of 2023 and 4% of capacity for the full year 2024 visited the Middle East, which includes Bahrain, Cyprus, Egypt, Israel, Jordan, Oman, Qatar, Saudi Arabia, and United Arab Emirates.

Occupancy averaged 106.1% for the third quarter of 2023 reflective of the Company’s strategic shift to longer, more immersive itineraries. Full year 2023 Occupancy is expected to average 102.6%, which includes temporary disruptions impacting the fourth quarter.

Macroeconomic Trends and Uncertainties

As a result of conditions associated with global macroeconomic events, the global economy, including the financial and credit markets, has experienced volatility and disruptions, including impacts to inflation rates, fuel prices, foreign currencies and interest rates. Our costs have been, and are expected to continue to be, adversely impacted by these factors. We have used, and may continue to use, derivative instruments to attempt to mitigate the risk of volatility in fuel prices and interest rates. The Company currently has hedged approximately 45%, 36% and 8% of its total projected metric tons of fuel consumption for the remainder of 2023, 2024 and 2025, respectively. In an attempt to mitigate risks related to inflation, our supply chain department has negotiated contracts with varying terms, with a goal of providing us with the ability to take advantage of cost declines when they occur, and diversified our sourcing options. These strategies may not fully offset the impact of current macroeconomic conditions; however, during the third quarter of 2023, we continued to see progress from our ongoing margin enhancement initiative. The Company continues to prioritize identifying and evaluating a variety of initiatives to improve its cost structure and margin profile, while preserving its brand equity and optimal guest satisfaction levels. Furthermore, we are exposed to fluctuations in the euro exchange rate for certain portions of ship construction contracts that have not been hedged. See “Item 1A. Risk Factors” in our Annual Report on Form 10-K for additional information.

Climate Change

We believe the increasing focus on climate change, including the Company’s recently established targets for greenhouse gas reductions, and evolving regulatory requirements will materially impact our future capital expenditures and results of operations. We are now targeting a reduction in greenhouse gas intensity of 10% by 2026 and 25% by 2030, compared

[Table of Contents](#)

to a 2019 baseline and measured on a per Capacity Day basis (the targets cover the Company's emissions from its fleet of ships, islands and facilities (Scopes 1 & 2) as well as upstream fuel- and energy-related activities, including well-to-tank emissions (a portion of Scope 3). We expect to incur significant expenses related to these regulatory requirements and commitments, which may include expenses related to greenhouse gas emissions reduction initiatives and the purchase of emissions allowances, among other things. If requirements become more stringent, we may be required to change certain operating procedures, for example slowing the speed of our ships, which could adversely impact our operations. We are evaluating the effects of global climate change related requirements, which are still evolving, including our ability to mitigate certain future expenses through initiatives to reduce greenhouse gas emissions; consequently, the full impact to the Company is not yet known. Additionally, our ships, port facilities, corporate offices and island destinations have in the past and may again be adversely affected by an increase in the frequency and intensity of adverse weather conditions caused by climate change. For example, certain ports have become temporarily unavailable to us due to hurricane damage and other destinations have either considered or implemented restrictions on cruise operations due to environmental concerns. Refer to "Impacts related to climate change may adversely affect our business, financial condition and results of operations" in "Item 1A. Risk Factors" in our Annual Report on Form 10-K for further information.

Quarterly Overview

Three months ended September 30, 2023 ("2023") compared to three months ended September 30, 2022 ("2022")

- Total revenue increased to \$2.5 billion compared to \$1.6 billion.
- Net income (loss) and diluted EPS were \$345.9 million and \$0.71, respectively, compared to \$(295.4) million and \$(0.70), respectively.
- Operating income was \$523.3 million compared to operating loss of \$(185.2) million.
- Gross margin was \$862.7 million compared to \$202.2 million. Adjusted Gross Margin was \$1.8 billion compared to \$1.1 billion.
- Adjusted Net Income and Adjusted EPS were \$388.0 million and \$0.76, respectively, in 2023, which included \$24.6 million of adjustments primarily related to share-based compensation. Adjusted Net Loss and Adjusted EPS were \$(268.3) million and \$(0.64), respectively, in 2022, which included \$27.1 million of adjustments primarily related to share-based compensation.
- Adjusted EBITDA improved to \$752.1 million compared to \$28.1 million.

We refer you to our "Results of Operations" below for a calculation of Adjusted Gross Margin, Adjusted Net Income (Loss), Adjusted EPS and Adjusted EBITDA.

Results of Operations

The following table sets forth selected statistical information:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2023	2022	2023	2022
Passengers carried	740,658	526,838	2,067,653	1,111,931
Passenger Cruise Days	6,176,403	3,982,559	17,455,259	8,411,308
Capacity Days	5,820,448	4,887,415	16,749,283	12,505,203
Occupancy Percentage	106.1 %	81.5 %	104.2 %	67.3 %

Adjusted Gross Margin and Net Yield were calculated as follows (in thousands, except Capacity Days and Yield data):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2023	2022	2023	2022
Total revenue	\$ 2,536,037	\$ 1,615,510	\$ 6,563,468	\$ 3,324,631
Less:				
Total cruise operating expense	1,482,746	1,238,898	4,146,774	3,047,627
Ship depreciation	190,549	174,393	555,617	511,785
Gross margin	862,742	202,219	1,861,077	(234,781)
Ship depreciation	190,549	174,393	555,617	511,785
Payroll and related	323,862	287,390	936,237	790,697
Fuel	170,893	186,984	530,003	503,682
Food	87,839	76,810	271,575	177,483
Other	165,432	208,176	476,123	623,374
Adjusted Gross Margin	\$ 1,801,317	\$ 1,135,972	\$ 4,630,632	\$ 2,372,240
Capacity Days	5,820,448	4,887,415	16,749,283	12,505,203
Gross margin per Capacity Day	\$ 148.23		\$ 111.11	
Net Yield	\$ 309.48		\$ 276.47	

Gross Cruise Cost, Net Cruise Cost, Net Cruise Cost Excluding Fuel and Adjusted Net Cruise Cost Excluding Fuel were calculated as follows (in thousands, except Capacity Days and per Capacity Day data):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2023	2022	2023	2022
Total cruise operating expense	\$ 1,482,746	\$ 1,238,898	\$ 4,146,774	\$ 3,047,627
Marketing, general and administrative expense	325,365	375,291	1,013,600	1,000,578
Gross Cruise Cost	1,808,111	1,614,189	5,160,374	4,048,205
Less:				
Commissions, transportation and other expense	546,026	352,798	1,462,565	696,946
Onboard and other expense	188,694	126,740	470,271	255,445
Net Cruise Cost	1,073,391	1,134,651	3,227,538	3,095,814
Less: Fuel expense	170,893	186,984	530,003	503,682
Net Cruise Cost Excluding Fuel	902,498	947,667	2,697,535	2,592,132
Less Other Non-GAAP Adjustments:				
Non-cash deferred compensation (1)	578	700	1,734	2,098
Non-cash share-based compensation (2)	23,563	26,083	96,254	88,923
Adjusted Net Cruise Cost Excluding Fuel	\$ 878,357	\$ 920,884	\$ 2,599,547	\$ 2,501,111
Capacity Days	5,820,448	4,887,415	16,749,283	12,505,203
Gross Cruise Cost per Capacity Day	\$ 310.65		\$ 308.10	
Net Cruise Cost per Capacity Day	\$ 184.42		\$ 192.70	
Net Cruise Cost Excluding Fuel per Capacity Day	\$ 155.06		\$ 161.05	
Adjusted Net Cruise Cost Excluding Fuel per Capacity Day	\$ 150.91		\$ 155.20	

- (1) Non-cash deferred compensation expenses related to the crew pension plan and other crew expenses, which are included in payroll and related expense.
- (2) Non-cash share-based compensation expenses related to equity awards, which are included in marketing, general and administrative expense and payroll and related expense.

[Table of Contents](#)

Adjusted Net Income (Loss) and Adjusted EPS were calculated as follows (in thousands, except share and per share data):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2023	2022	2023	2022
Net income (loss)	\$ 345,868	\$ (295,394)	\$ 272,663	\$ (1,787,429)
Effect of dilutive securities - exchangeable notes	17,510	—	13,809	—
Net income (loss) and assumed conversion of exchangeable notes	363,378	(295,394)	286,472	(1,787,429)
Non-GAAP Adjustments:				
Non-cash deferred compensation (1)	1,009	1,012	3,029	3,036
Non-cash share-based compensation (2)	23,563	26,083	96,254	88,923
Extinguishment and modification of debt (3)	—	—	3,153	188,433
Adjusted Net Income (Loss)	\$ 387,950	\$ (268,299)	\$ 388,908	\$ (1,507,037)
Diluted weighted-average shares outstanding - Net income (loss) and assumed conversion of exchangeable notes and Adjusted Net Income (Loss)	511,585,445	420,798,538	460,819,375	419,224,710
Diluted EPS	\$ 0.71	\$ (0.70)	\$ 0.62	\$ (4.26)
Adjusted EPS	\$ 0.76	\$ (0.64)	\$ 0.84	\$ (3.59)

- (1) Non-cash deferred compensation expenses related to the crew pension plan and other crew expenses, which are included in payroll and related expense and other income (expense), net.
- (2) Non-cash share-based compensation expenses related to equity awards, which are included in marketing, general and administrative expense and payroll and related expense.
- (3) Losses on extinguishment of debt and modification of debt are included in interest expense, net.

EBITDA and Adjusted EBITDA were calculated as follows (in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2023	2022	2023	2022
Net income (loss)	\$ 345,868	\$ (295,394)	\$ 272,663	\$ (1,787,429)
Interest expense, net	181,201	152,330	530,150	624,392
Income tax (benefit) expense	8,309	(10,705)	(1,170)	(7,179)
Depreciation and amortization expense	204,608	186,551	596,513	547,214
EBITDA	739,986	32,782	1,398,156	(623,002)
Other (income) expense, net (1)	(12,060)	(31,461)	4,938	(100,572)
Other Non-GAAP Adjustments:				
Non-cash deferred compensation (2)	578	700	1,734	2,098
Non-cash share-based compensation (3)	23,563	26,083	96,254	88,923
Adjusted EBITDA	\$ 752,067	\$ 28,104	\$ 1,501,082	\$ (632,553)

- (1) Primarily consists of gains and losses, net for foreign currency remeasurements.
- (2) Non-cash deferred compensation expenses related to the crew pension plan and other crew expenses, which are included in payroll and related expense.
- (3) Non-cash share-based compensation expenses related to equity awards, which are included in marketing, general and administrative expense and payroll and related expense.

Three months ended September 30, 2023 (“2023”) compared to three months ended September 30, 2022 (“2022”)

Revenue

Total revenue increased to \$2.5 billion in 2023 compared to \$1.6 billion in 2022. In 2023, revenue primarily increased as a result of increases in our Occupancy following our return to service with 6.2 million Passenger Cruise Days compared to 4.0 million in 2022.

Expense

Total cruise operating expense increased 19.7% in 2023 compared to 2022. In 2023, our cruise operating expenses increased due to the phased Occupancy ramp-up, resulting in higher direct variable costs of fully operating ships. Additionally, cruise operating expenses increased as a result of the deliveries of Norwegian Prima, Norwegian Viva and Oceania Cruises’ Vista in 2022 and 2023. Gross Cruise Cost increased 12.0% in 2023 compared to 2022 primarily related to the change in costs described above. Total other operating expense decreased 5.7% in 2023 compared to 2022 primarily due to a decrease in marketing costs.

Interest expense, net was \$181.2 million in 2023 compared to \$152.3 million in 2022. The increase in interest expense is primarily as a result of higher rates.

Other income (expense), net was income of \$12.1 million in 2023 compared to \$31.5 million in 2022. The income primarily related to net gains and losses on foreign currency remeasurements.

Nine months ended September 30, 2023 (“2023”) compared to nine months ended September 30, 2022 (“2022”)

Revenue

Total revenue increased to \$6.6 billion in 2023 compared to \$3.3 billion in 2022. In 2023, revenue primarily increased as a result of increases in our Occupancy following our return to service with 17.5 million Passenger Cruise Days compared to 8.4 million in 2022.

Expense

Total cruise operating expense increased 36.1% in 2023 compared to 2022. In 2023, our cruise operating expenses increased due to the resumption of voyages, resulting in higher payroll, food and direct variable costs of fully operating ships. In 2022, the nine months started with 16 ships operating with guests onboard and ended with the full fleet in service, which was completed in May 2022. Gross Cruise Cost increased 27.5% in 2023 compared to 2022 primarily related to the change in costs described above. Total other operating expense increased 4.0% in 2023 compared to 2022 primarily due to higher depreciation expense as a result of the deliveries of Norwegian Prima, Norwegian Viva and Oceania Cruises’ Vista in 2022 and 2023.

Interest expense, net was \$530.2 million in 2023 compared to \$624.4 million in 2022. The decrease in interest expense reflects lower losses in 2023 from extinguishment of debt and debt modification costs, which were \$3.2 million in 2023 compared to \$188.4 million in 2022. Excluding these losses, interest expense increased primarily as a result of higher rates.

Other income (expense), net was expense of \$4.9 million in 2023 compared to income of \$100.6 million in 2022. The income and expense primarily related to net gains and losses on foreign currency remeasurements.

Liquidity and Capital Resources

General

As of September 30, 2023, our liquidity was approximately \$2.2 billion, including cash and cash equivalents of \$681.6 million and borrowings available under our \$875 million fully undrawn Revolving Loan Facility and \$650 million undrawn commitment less related fees. Our primary ongoing liquidity requirements are to finance working capital, capital expenditures and debt service.

In February 2023, NCLC issued \$600 million aggregate principal amount of 8.375% senior secured notes due 2028. The proceeds from the notes were used to repay the loans outstanding under our Term Loan A Facility that otherwise would have become due in January 2024, including to pay any accrued and unpaid interest thereon, as well as related premiums, fees and expenses.

In February 2023, our \$1 billion commitment letter was extended through February 2024, with an option for NCLC to further extend the commitments through February 2025 at its election. Simultaneously, the amount of the commitment was reduced to \$650 million, which may be drawn in up to two draws, and in connection with the execution of the amended commitment letter, NCLC issued \$250 million aggregate principal amount of 9.75% senior secured notes due 2028. NCLC used the net proceeds for general corporate purposes.

In October 2023, NCLC issued \$790 million aggregate principal amount of 8.125% senior secured notes due 2029. The proceeds from the notes, together with cash on hand, were used to repay the Term Loan A Facility, including to pay any accrued and unpaid interest thereon, as well as related premiums, fees and expenses.

Also in October 2023, the Senior Secured Credit Facility was amended and restated, which among other things, increased the aggregate amount of the lenders' revolving facility commitments from \$875 million to \$1.2 billion. No term loans remain outstanding.

See Note 7 – “Long-Term Debt” for more information on the above financing transactions.

The estimation of our future cash flow projections includes numerous assumptions that are subject to various risks and uncertainties. Refer to Note 2 – “Summary of Significant Accounting Policies” in our Annual Report on Form 10-K for further information on liquidity. Refer to “Item 1A. Risk Factors” herein and in our Annual Report on Form 10-K for risks and uncertainties that may cause our results to differ from our expectations.

There can be no assurance that the accuracy of the assumptions used to estimate our liquidity requirements will be correct, and our ability to be predictive is uncertain due to the dynamic nature of the current operating environment, including any current macroeconomic events and conditions such as inflation, rising fuel prices and rising interest rates. Based on the liquidity estimates and our current resources, we have concluded we have sufficient liquidity to satisfy our obligations for at least the next 12 months. Within the next twelve months we will pursue refinancings in order to reduce interest expense and/or extend debt maturities. There is no assurance that cash flows from operations and additional financings will be available in the future to fund our future obligations. Beyond the next 12 months, we will pursue refinancings and other balance sheet optimization transactions in order to reduce interest expense and/or extend debt maturities.

We have received amendments to certain financial and other debt covenants, including the modification of our free liquidity requirements. At September 30, 2023, taking into account such amendments, we were in compliance with all of our debt covenants. If we do not continue to remain in compliance with our covenants, we would have to seek additional amendments to or waivers of the covenants. However, no assurances can be made that such amendments or waivers would be approved by our lenders. Generally, if an event of default under any debt agreement occurs, then pursuant to cross default and/or cross acceleration clauses, substantially all of our outstanding debt and derivative contract payables could become due, and all debt and derivative contracts could be terminated, which would have a material adverse impact to our operations and liquidity.

[Table of Contents](#)

Our Moody's long-term issuer rating is B2, our senior secured rating is B1 and our senior unsecured rating is Caa1. Our S&P Global issuer credit rating is B, our issue-level rating on our \$1.2 billion Revolving Loan Facility, 2028 Senior Secured Notes and 2029 Senior Secured Notes is BB-, our issue-level rating on our other senior secured notes is B+ and our senior unsecured rating is CCC+. If our credit ratings were to be downgraded, or general market conditions were to ascribe higher risk to our rating levels, our industry, or us, our access to capital and the cost of any debt or equity financing will be further negatively impacted. We also have capacity to incur additional indebtedness under our debt agreements and may issue additional ordinary shares from time to time, subject to our authorized number of ordinary shares. However, there is no guarantee that debt or equity financings will be available in the future to fund our obligations, or that they will be available on terms consistent with our expectations.

As of September 30, 2023, we had advance ticket sales of \$3.1 billion, including the long-term portion, which included approximately \$71.3 million of future cruise credits. We also have agreements with our credit card processors that, as of September 30, 2023, governed approximately \$2.8 billion in advance ticket sales that had been received by the Company relating to future voyages. These agreements allow the credit card processors to require under certain circumstances, including the existence of a material adverse change, excessive chargebacks and other triggering events, that the Company maintain a reserve which would be satisfied by posting collateral. Although the agreements vary, these requirements may generally be satisfied either through a percentage of customer payments withheld or providing cash funds directly to the card processor. Any cash reserve or collateral requested could be increased or decreased. As of September 30, 2023, we had cash collateral reserves of approximately \$42.0 million with credit card processors recognized in accounts receivable, net. During the nine months ended September 30, 2023, the Company received a return of cash collateral from one credit card processor of \$500 million, which was previously classified as other long-term assets. We may be required to pledge additional collateral and/or post additional cash reserves or take other actions in the future that may adversely affect our liquidity.

Sources and Uses of Cash

In this section, references to "2023" refer to the nine months ended September 30, 2023 and references to "2022" refer to the nine months ended September 30, 2022.

Net cash provided by operating activities was \$1.7 billion in 2023 as compared to net cash used in operating activities of \$26.6 million in 2022. The net cash provided by (used in) operating activities included net income (losses) and timing differences in cash receipts and payments relating to operating assets and liabilities. The net cash provided by operating activities includes the return of \$500 million cash collateral from one credit card processor in 2023. Advance ticket sales increased by \$419.4 million in 2023 and by \$713.4 million in 2022. The net loss also includes losses on extinguishment of debt of \$188.4 million in 2022.

Net cash used in investing activities was \$2.2 billion in 2023 and \$1.6 billion in 2022. The net cash used in investing activities was primarily related to newbuild payments in 2023. The net cash used in investing activities was primarily related to the delivery of Norwegian Prima in 2022.

Net cash provided by financing activities was \$194.5 million in 2023 primarily due to newbuild loans and \$850 million from our various note offerings, partially offset by debt repayments and a net decrease in our Revolving Loan Facility balance. Net cash provided by financing activities was \$1.3 billion in 2022 primarily due to newbuild loans and the proceeds of \$2.1 billion from our various note offerings, partially offset by debt repayments and related redemption premiums associated with extinguishment of certain senior secured notes.

Future Capital Commitments

Future capital commitments consist of contracted commitments, including ship construction contracts. Anticipated expenditures related to ship construction contracts as of September 30, 2023 were \$0.6 billion for the remainder of 2023 and \$0.4 billion and \$1.9 billion for the years ending December 31, 2024 and 2025, respectively, reflecting delays in certain scheduled ship delivery dates. As of September 30, 2023, the Company has export credit financing in place for the anticipated expenditures related to ship construction contracts of \$0.5 billion for the remainder of 2023 and \$0.2 billion and \$1.4 billion for the years ending December 31, 2024 and 2025, respectively. Anticipated non-newbuild

[Table of Contents](#)

capital expenditures for the remainder of 2023 are approximately \$135 million. Future expected capital expenditures will significantly increase our depreciation and amortization expense.

For the Norwegian brand, we have four Prima Class Ships on order, each ranging from approximately 156,300 to 169,000 Gross Tons with 3,450 or more Berths, with currently scheduled delivery dates from 2025 through 2028. For the Regent brand, we have an order for one Explorer Class Ship to be delivered in 2023, which will be approximately 55,000 Gross Tons and 750 Berths. For the Oceania Cruises brand, we have an order for one additional Allura Class Ship to be delivered in 2025, which will be approximately 67,000 Gross Tons and 1,200 Berths. The impacts of initiatives to improve environmental sustainability and modifications the Company plans to make to its newbuilds and/or other macroeconomic conditions and events have resulted in delays in expected ship deliveries. These and other impacts could result in additional delays in ship deliveries in the future, which may be prolonged.

As of September 30, 2023, the combined contract prices, including amendments and change orders, of the six ships on order for delivery was approximately €6.3 billion, or \$6.7 billion based on the euro/U.S. dollar exchange rate as of September 30, 2023. We have obtained export credit financing which is expected to fund approximately 80% of the contract price of each ship and related financing premiums, subject to certain conditions. We do not anticipate any contractual breaches or cancellations to occur. However, if any such events were to occur, it could result in, among other things, the forfeiture of prior deposits or payments made by us and potential claims and impairment losses which may materially impact our business, financial condition and results of operations.

Capitalized interest for the three months ended September 30, 2023 and 2022 was \$13.4 million and \$17.0 million, respectively, and for the nine months ended September 30, 2023 and 2022 was \$44.7 million and \$45.1 million, respectively, primarily associated with the construction of our newbuild ships.

Material Cash Requirements

As of September 30, 2023, our material cash requirements for debt and ship construction were as follows (in thousands):

	Remainder of 2023	2024	2025	2026	2027	2028	Thereafter	Total
Long-term debt (1)	\$ 455,734	\$ 2,411,426	\$ 2,476,837	\$ 2,588,560	\$ 3,529,872	\$ 2,066,458	\$ 3,015,814	\$ 16,544,701
Ship construction contracts (2)	569,429	270,304	1,828,875	1,272,693	1,221,287	1,137,655	—	6,300,243
Total	\$ 1,025,163	\$ 2,681,730	\$ 4,305,712	\$ 3,861,253	\$ 4,751,159	\$ 3,204,113	\$ 3,015,814	\$ 22,844,944

(1) Includes principal as well as estimated interest payments with Term SOFR held constant as of September 30, 2023. Includes exchangeable notes which can be settled in shares. Excludes the impact of any future possible refinancings and undrawn export-credit backed facilities.

(2) Ship construction contracts are for our newbuild ships based on the euro/U.S. dollar exchange rate as of September 30, 2023. As of September 30, 2023, we have committed undrawn export-credit backed facilities of approximately \$5.8 billion which funds approximately 80% of our ship construction contracts.

Funding Sources

Certain of our debt agreements contain covenants that, among other things, require us to maintain a minimum level of liquidity, as well as limit our net funded debt-to-capital ratio and maintain certain other ratios. Substantially all of our ships and certain other assets are pledged as collateral for certain of our debt. We have received amendments to certain financial and other debt covenants, including the modification of our free liquidity requirements. After taking into account such amendments, we believe we were in compliance with these covenants as of September 30, 2023.

In addition, our existing debt agreements restrict, and any of our future debt arrangements may restrict, among other things, the ability of our subsidiaries, including NCLC, to make distributions and/or pay dividends to NCLH and NCLH's ability to pay cash dividends to its shareholders. NCLH is a holding company and depends upon its subsidiaries for their ability to pay distributions to it to finance any dividend or pay any other obligations of NCLH. However, we do not believe that these restrictions have had or are expected to have an impact on our ability to meet any cash obligations.

We believe our cash on hand, the availability under the Revolving Loan Facility and undrawn commitment less related fees, expected future operating cash inflows and our ability to issue debt securities or additional equity securities, will be sufficient to fund operations, debt payment requirements, capital expenditures and maintain compliance with covenants under our debt agreements over the next 12-month period. Refer to “—Liquidity and Capital Resources—General” for further information regarding the debt covenant waivers and liquidity requirements.

Other

Certain service providers may require collateral in the normal course of our business. The amount of collateral may change based on certain terms and conditions.

As a routine part of our business, depending on market conditions, exchange rates, pricing and our strategy for growth, we regularly consider opportunities to enter into contracts for the building of additional ships. We may also consider the sale of ships, potential acquisitions and strategic alliances. If any of these transactions were to occur, they may be financed through the incurrence of additional permitted indebtedness, through cash flows from operations, or through the issuance of debt, equity or equity-related securities.

We refer you to “—Liquidity and Capital Resources—General” for information regarding collateral provided to our credit card processors.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

General

We are exposed to market risk attributable to changes in interest rates, foreign currency exchange rates and fuel prices. We attempt to minimize these risks through a combination of our normal operating and financing activities and through the use of derivatives. The financial impacts of these derivative instruments are primarily offset by corresponding changes in the underlying exposures being hedged. We achieve this by closely matching the notional, term and conditions of the derivatives with the underlying risk being hedged. We do not hold or issue derivatives for trading or other speculative purposes. Derivative positions are monitored using techniques including market valuations and sensitivity analyses.

Interest Rate Risk

As of September 30, 2023, 88% of our debt was fixed and 12% was variable. As of December 31, 2022, 75% of our debt was fixed and 25% was variable. The change in our fixed rate percentage from December 31, 2022 to September 30, 2023 was primarily due to the addition of fixed rate debt, which partially replaced variable rate debt. Based on our September 30, 2023 outstanding variable rate debt balance, a one percentage point increase in annual Term SOFR interest rates would increase our annual interest expense by approximately \$16.4 million excluding the effects of capitalization of interest.

Foreign Currency Exchange Rate Risk

As of September 30, 2023, we had foreign currency derivatives to hedge the exposure to volatility in foreign currency exchange rates related to our ship construction contracts denominated in euros. These derivatives hedge the foreign currency exchange rate risk on a portion of the payments on our ship construction contracts. The payments not hedged aggregate €5.5 billion, or \$5.8 billion based on the euro/U.S. dollar exchange rate as of September 30, 2023. As of December 31, 2022, the payments not hedged aggregated €4.5 billion, or \$4.8 billion, based on the euro/U.S. dollar exchange rate as of December 31, 2022. The change from December 31, 2022 to September 30, 2023 was due to an increase in contract price for our newbuild agreements. We estimate that a 10% change in the euro as of September 30, 2023 would result in a \$0.6 billion change in the U.S. dollar value of the foreign currency denominated remaining payments.

Fuel Price Risk

Our exposure to market risk for changes in fuel prices relates to the forecasted purchases of fuel on our ships. Fuel expense, as a percentage of our total cruise operating expense, was 11.5% and 15.1% for the three months ended September 30, 2023 and 2022, respectively, and 12.8% and 16.5% for the nine months ended September 30, 2023 and 2022, respectively. We use fuel derivative agreements to mitigate the financial impact of fluctuations in fuel prices and as of September 30, 2023, we had hedged approximately 45% and 24% of our remaining 2023 and 2024 projected metric tons of fuel purchases, respectively. As of December 31, 2022, we had hedged approximately 50% of our 2023 projected metric tons of fuel purchases. The percentage of fuel purchases hedged changed between December 31, 2022 and September 30, 2023 primarily due to the addition of fuel swaps in 2024 and the maturity of fuel swaps in 2023.

We estimate that a 10% increase in our weighted-average fuel price would increase our anticipated 2023 fuel expense by \$21.7 million. This increase would be offset by an increase in the fair value of all our fuel swap agreements of \$12.3 million. Fair value of our derivative contracts is derived using valuation models that utilize the income valuation approach. These valuation models take into account the contract terms such as maturity, as well as other inputs such as fuel types, fuel curves, creditworthiness of the counterparty and the Company, as well as other data points.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Our management has evaluated, with the participation of our Chief Executive Officer and Chief Financial Officer, the effectiveness of our disclosure controls and procedures, as such term is defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended, as of September 30, 2023. There are inherent limitations in the effectiveness of any system of disclosure controls and procedures, including the possibility of human error and the circumvention or overriding of the controls and procedures. Accordingly, even effective disclosure controls and procedures can only provide reasonable assurance of achieving their control objectives. Based upon management's evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective as of September 30, 2023 to provide reasonable assurance that the information required to be disclosed by us in the reports we file or submit under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the SEC, and that it is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

Changes in Internal Control Over Financial Reporting

There have been no changes in our internal control over financial reporting during the quarter ended September 30, 2023 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Limitations on the Effectiveness of Controls

It should be noted that any system of controls, however well designed and operated, can provide only reasonable, and not absolute, assurance that the objectives of the system will be met. In addition, the design of any control system is based in part upon certain assumptions about the likelihood of future events. Because of these and other inherent limitations of control systems, there is only the reasonable assurance that our controls will succeed in achieving their goals under all potential future conditions.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

Our threshold for disclosing material environmental legal proceedings involving a governmental authority where potential monetary sanctions are involved is \$1 million.

See the section titled “Litigation” in “[Item 1—Financial Statements—Notes to Consolidated Financial Statements—Note 10 Commitments and Contingencies](#)” in Part I of this quarterly report for information about legal proceedings.

Item 1A. Risk Factors

We refer you to our Annual Report on Form 10-K for a discussion of the risk factors that affect our business and financial results. We caution you that the risk factors discussed in “Item 1A. Risk Factors” in our Annual Report on Form 10-K, elsewhere in this report or other SEC filings, could cause future results to differ materially from those stated in any forward-looking statements. You should not interpret the disclosure of a risk to imply that the risk has not already materialized. The impact of macroeconomic conditions have also had the effect of heightening many of the other risks described in the “Risk Factors” included in our Annual Report on Form 10-K, such as those relating to our need to generate sufficient cash flows to service our indebtedness, and our ability to comply with the covenants contained in the agreements that govern our indebtedness.

Other than updates to the risk factors set forth below, there have been no material changes in our risk factors from those disclosed in our Annual Report on Form 10-K.

Changes in tax laws or challenges to our tax positions could adversely affect our results of operations and financial condition.

We believe and have taken the position that our income that is considered to be derived from the international operation of ships as well as certain income that is considered to be incidental to such income (“shipping income”), is exempt from U.S. federal income taxes under Section 883, based upon certain assumptions as to shareholdings and other information as more fully described in “Item 1—Business—Taxation” of our Annual Report on Form 10-K. The provisions of Section 883 are subject to change at any time, possibly with retroactive effect.

We believe and have taken the position that substantially all of our income derived from the international operation of ships is properly categorized as shipping income and that we do not have a material amount of non-qualifying income. It is possible, however, that a much larger percentage of our income does not qualify (or will not qualify) as shipping income. Moreover, the exemption for shipping income is only available for years in which NCLH will satisfy complex stock ownership tests or the publicly traded test under Section 883 as described in “Item 1—Business—Taxation—Exemption of International Shipping Income under Section 883 of the Code” of our Annual Report on Form 10-K. There are factual circumstances beyond our control, including changes in the direct and indirect owners of NCLH’s ordinary shares, which could cause us or our subsidiaries to lose the benefit of this tax exemption. Finally, any changes in our operations could significantly increase our exposure to either the Net Tax Regime or the 4% Regime (each as defined in “Item 1—Business—Taxation” of our Annual Report on Form 10-K), and we can give no assurances on this matter.

If we or any of our subsidiaries were not to qualify for the exemption under Section 883, our or such subsidiary’s U.S.-source income would be subject to either the Net Tax Regime or the 4% Regime (each as defined in “Item 1—Business—Taxation” of our Annual Report on Form 10-K). As of the date of this filing, we believe that NCLH and its subsidiaries will satisfy the publicly traded test imposed under Section 883 and therefore believe that NCLH will qualify for the exemption under Section 883. However, as discussed above, there are factual circumstances beyond our control that could cause NCLH to not meet the stock ownership or publicly traded tests. Therefore, we can give no assurances on this matter. We refer you to “Item 1—Business—Taxation” of our Annual Report on Form 10-K.

We may be subject to state, local and non-U.S. income or non-income taxes in various jurisdictions, including those in which we transact business, own property or reside. We may be required to file tax returns in some or all of those jurisdictions. Our state, local or non-U.S. tax treatment may not conform to the U.S. federal income tax treatment discussed above. We may be required to pay non-U.S. taxes on dispositions of foreign property or operations involving foreign property that may give rise to non-U.S. income or other tax liabilities in amounts that could be substantial.

The various tax regimes to which we are currently subject result in a relatively low effective tax rate on our worldwide income. These tax regimes, however, are subject to change, possibly with retroactive effect. For example, legislation has been proposed in the past that would eliminate the benefits of the exemption from U.S. federal income tax under Section

883 and subject all or a portion of our shipping income to taxation in the U.S. Moreover, changes in tax laws could adversely affect our tax position, including our effective tax rate, tax payments and exemption of branch profits and dividend withholding taxes under the U.S. – U.K. Income Tax Treaty on income derived in respect of our U.S.-flagged operation. For example, the Organization for Economic Co-operation and Development and numerous jurisdictions (including the United Kingdom) have had an increased focus on issues concerning the taxation of multinational businesses and have adopted several related reforms, including the implementation of a global minimum tax rate of at least 15% for large multinational businesses starting January 1, 2024 or later, which could have a material adverse effect on our aggregate tax liability and effective tax rate. We are monitoring these developments and are in the process of reorganizing our organizational structure as a result of global tax reform. If our current assumptions and interpretations regarding the global minimum tax rules or our efforts to reorganize prove to be incorrect for any reason, our business, financial condition and results of operations could be materially adversely affected. We expect global tax reform will continue to evolve over the coming years.

At the present time, there is no Bermuda income or profits tax, withholding tax, capital gains tax, capital transfer tax, estate duty or inheritance tax payable by our shareholders in respect of our shares. We have obtained an assurance from the Minister of Finance of Bermuda under the Exempted Undertakings Tax Protection Act 1966 that, in the event that any legislation is enacted in Bermuda imposing any tax computed on profits or income, or computed on any capital asset, gain or appreciation or any tax in the nature of estate duty or inheritance tax, such tax shall not, until March 31, 2035, be applicable to us or to any of our operations or to our shares, debentures or other obligations except insofar as such tax applies to persons ordinarily resident in Bermuda or to any taxes payable by us in respect of real property owned or leased by us in Bermuda. Given the limited duration of the Bermuda Minister's assurance, it cannot be certain that the Company will not be subject to any Bermuda tax after March 31, 2035.

The Bermuda government has issued public consultation papers as part of its considerations on the introduction a corporate income tax on August 8, 2023 and October 5, 2023. A third public consultation paper, including draft legislation, is expected to be released on or about November 10, 2023. Under the current proposals as outlined in the first and second consultation papers, Bermuda corporate income tax would apply only to Bermuda businesses that are part of multinational enterprise groups with EUR 750 million or more in annual revenues in at least two of the four fiscal years immediately preceding the fiscal year in question. The proposed Bermuda corporate income tax legislation is currently anticipated to be effective for fiscal years beginning on or after January 1, 2025. The Bermuda government has indicated that it believes that it is reasonable and proportionate for any new Bermuda corporate income tax regime to supersede any existing tax assurances held by entities that are within the scope of the new Bermuda corporate income tax. Although we cannot predict when or if any new Bermuda corporate income tax law will be adopted or will become effective, the imposition of a Bermuda corporate income tax could, if applicable to the Company (or any Bermuda incorporated subsidiary of the Company), have a material adverse effect on the Company's financial condition and results of operations.

In addition, there cannot be certainty that the relevant tax authorities are in agreement with our interpretation of applicable tax laws. If our tax positions are challenged by relevant tax authorities, the imposition of additional taxes could increase our effective tax rate and have a negative effect on our business, financial condition and results of operations. The occurrence of any of the foregoing tax risks could have a material adverse effect on our business, financial condition and results of operations.

Item 5. Other Information

10b5-1 Trading Arrangements

During the three months ended September 30, 2023, none of our directors or officers subject to Section 16 of the Securities Exchange Act of 1934 adopted or terminated any "Rule 10b5-1 trading arrangement" or "non-Rule 10b5-1 trading arrangement" (in each case, as defined in Item 408(a) of Regulation S-K).

Item 6. Exhibits

- 4.1 [Indenture, dated October 18, 2023, by and among NCL Corporation Ltd., as issuer, the guarantors party thereto, U.S. Bank Trust Company, National Association, as trustee, principal paying agent, transfer agent and registrar, and JPMorgan Chase Bank, N.A., as security agent, with respect to \\$790.0 million aggregate principal amount of 8.125% senior secured notes due 2029 \(incorporated herein by reference to Exhibit 4.1 to Norwegian Cruise Line Holdings Ltd.'s Form 8-K filed on October 19, 2023 \(File No. 001-35784\)\)](#)

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.

NORWEGIAN CRUISE LINE HOLDINGS LTD.
(Registrant)

By: /s/ HARRY SOMMER
Name: Harry Sommer
Title: President and Chief Executive Officer
(Principal Executive Officer)

By: /s/ MARK A. KEMPA
Name: Mark A. Kempa
Title: Executive Vice President and Chief Financial Officer
(Principal Financial Officer)

Dated: November 8, 2023

CERTIFICATION

I, Harry Sommer, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Norwegian Cruise Line Holdings Ltd.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c. Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation;
 - d. Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

CERTIFICATION

I, Mark A. Kempa, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Norwegian Cruise Line Holdings Ltd.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c. Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation;
 - d. Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
